

ન્યુ ગાલા અસાઇનમેન્ટ 2022 સોલ્યુશન

ધોરણ - 10 ENGLISH

Question Paper - 2

વિભાગ - E

56. Write a paragraph in about 125 words on the following: 6

Trees

- (protect the earth - flowers - fruits - shade - medicines
- wood - clothes - fresh - cool atmosphere - rain)

Trees protect the earth. Trees give us flowers, fruits, wood, medicines, rubber, tea, coffee, spices and gum. Cotton and Jute are also obtained from trees. Trees keep the environment clean and pure. They attract rain clouds, leading to good rainfall. The roots of the trees Cause help in preventing soil erosion.

Trees preserve the Go to Settings to activate Windows fertility of the soil. Trees provide us with shelter.

**They are homes of birds and animals. If we cut trees,
our very existence will be in danger. Land would turn
into desert and we would be deprived of our basic
necessities like pure air, water, food. Clothing and shelter.
So i love trees.**

My Favourite Scientist

(name - his work - his achievements - his life awards - death)

Dr Vikram Sarabhai is my favourite scientist. He was born on August 12, 1919. He belonged to a family of industrialists. Mathematics and physics were his favourite subjects. He did a research on Cosmic Rays under the guidance of Prof. C.V. Raman at the Indian Institute of Science, Bangalore. Then he went to England and got a Ph.D. degree from the Cambridge University.

Vikram Sarabhai was a visionary. He established a physical research Laboratory(PRL) in Ahmedabad, Gulmarg, Kodaikanal and Trivandrum. He also established ATIRA, IIM, community Science centre and Space Application Centre (SAC). He set up a Rocket Launching Centre at Thumba, and later a rocket launching range at Shriharikota. Vikram Sarabhal was given Dr Shantiswarup

Bhatanagar Memorial Award for his contribution to space technology. In 1966, he was awarded the Padma Bhushan and after his death in 1971, he was awarded the Padama Vibhushan.

A Visit to an Exhibition

**(place of exhibition - timing - main gate - different sections
stalls software programs - hardware material - Internet
services - guidance electronic items - a new experience -
return)**

**Last month a grand exhibition was held in our city. My
friends and I went to see it in evening.**

Our first impression on entering the grounds was that

whole thing looked like a fairyland. The vast space was decorated in magnificent, bright and purple colour and lit up with countless lights. Men, women and children were moving from corner to corner, admiring the beauty of all kinds of stalls set up. These stalls were like small shops.

While the stalls made a very interesting sight, what attracted us most was the Children's Corner in the exhibition. The Children's Corner was crowded with boys and girls. All types of

**amusements could be seen here. Children and some grown-ups
were enjoying the giant wheel, wooden hoses, dodge-cars,
railway train and other things. I too had my share of fun with my
friends and returned home after enjoying a most delightful
evening.**

57. Draft an e-mail on behalf of Sujal Seth to his younger brother Rushi, who is unable to adjust with his new friends in hostel. 5

To : rushi92@gmail.com

Subject : How to adjust with new friends

Dear Rushi,

I was quite disturbed by your e-mail, where you have complained about your friends.

First of all, if people say or do something you don't like, they are not bad. Do not criticize them. Everyone has a right to have his opinions and ideas.

Secondly, you should remember that when something goes against you, it does not mean the whole world is against you. You must know that people or situations may not always be fine. If they are good, If they are not, learn to face them boldly.

Lastly, make a list of your abilities and limitations. Be

**honest. Tell yourself how you will work on the limitations and
change yourself. I am sure you can do this. Only you can.**

**Yours lovingly,
Sujal.**

Write a report in about 60 words on the prize distribution ceremony held in your school.
(time - place - chief speech - prize winners - clapping - the speech of chief guest)

A.B.C.D. high school,

Ahmedabad.

15 February, 2021

The Annual Prize Distribution of A.B.C.D high

school was held last week. Mr. Shubham Patil, the mayor of our city was the chief guest. Students, teachers and parents were present at the function.

After a small prayer and a welcome speech by the vice principal, the chief gave away the prizes. Aman Soni won the best student award. Bhavin Suthar was the best Sportsman of the year. All the winners were

cheered by the audience. In his speech the chief guest congratulated the winners and praised the activities of our school. The function ended with a vote of thanks and "Vande Mataram".

57. Describe the picture in about ten sentences.

➤ This is the picture of a birthday party. The room is decorated with balloons and ribbons. On the table, there is a big cake with candles on it. The room is full of little children. Two women are serving snakes and cold drinks, One man has a camera round his neck. There are many toys, gifts and flowers in the room. The music is also being played. Everyone is happy.

Thanks

For watching
